Stay on Top of Your Accounts with Online and Mobile Alerts

Did you know that you can receive text or email notifications to keep you up-to-date in real time with your Bank of Utica accounts? Alerts are customizable and can notify you of just about everything that happens with your account.

Set up alerts that let you know if your balance falls below a certain dollar amount or when there are deposits or withdrawals. You can also establish alerts to let you know when a loan payment is due or when a certificate of deposit is approaching maturity.

Just log in to Online Banking, select Alerts in the top right-hand corner of the screen and pick which type of account you'd like to set an alert for. After you click on Set New Alert you can then choose the type of notification that you would like to receive and how it is sent to you, either online, by email or with a text message. It's quick and easy.

We also offer CardValet® as part of our Mobile Banking Service which allows you to manage your debit cards. You can temporarily block your card if you misplace it, report them lost or stolen, establish card limits or set alerts to keep you informed when your cards are used based on transaction amount, location, merchant type or transaction type.

There are so many options that make your financial life easier. Sign up today or give us a call for more information.
